

# Waccamaw River Watershed (03040206-09)

This map illustrates the Waccamaw River Watershed, covering a significant portion of Horry County, South Carolina. The watershed boundary is highlighted in pink. The map details the extensive network of waterways, including the Waccamaw River, Bear River, and various swamps such as Beaverdam, Jones Big, and Watts Bay. Major roads, including US-905, US-90, SC-544, and US-501, are shown. Key locations like Conway, Myrtle Beach, and North Myrtle Beach are labeled. The map is populated with numerous monitoring points, each identified by a unique code and symbol. These points are distributed throughout the watershed, often near water bodies or infrastructure. A legend on the right side provides a key for the symbols used, including various types of monitoring points (triangles, circles, squares), swamps, and other geographical features. An inset map of South Carolina in the bottom right corner shows the location of the watershed within the state. A scale bar at the bottom right indicates distances in miles.

-  Macroinvertebrate Stations
-  Water Quality Monitoring Stations
-  Approved TMDL
-  Groundwater Monitoring Stations
-  Shellfish Monitoring Stations
-  Mines
-  Landfills
-  NPDES Permits
